WORK EXPERIENCE

Front End Developer

Deskcount

11/2020 - 05/2021

New Delhi, India

A platform where retailers can easily reach to the buyers when they have new stock or selling the old stock.

Achievements/Tasks

- Developed website and improved conversions by 100%, using Javascript, HTML5, AND CSS.
- Designed the UI/UX of the Deskcount's app which increased the overall downloads of the app.
- Through A/B testing of different components and combination improved customer conversion by 12%.

Lead Product Designer

Paycrunch

10/2020 - 06/2021

New Delhi, India

PayCrunch is a micro-loan lending app that makes borrowing money for students easier. It was recently been selected for the NASSCOM 10,000 Start-Ups.

Achievements/Tasks

- As the Lead designer, I took responsibility from strategy to the design of Paycrunch App and Website.
- Spearheaded all design elements, templates, and brand consistency.
- Followed lean startup approach: MVP and rapid iterations.

Product Developer

Buildnetic

01/2021 - Present

Singapore

Buildnetic build customizes solutions to helps companies across the globe.

Achievements/Tasks

- Worked with companies like Marks & Spencer and Acuver to review current products and provide design solutions to solve user's needs and business challenges.
- Designed a desktop dashboard for warehouse management for an internal client, incorporating user research and usability test findings.
- Led product design/development for 5+ Companies.
